Dear Simangaliso,

Re : Discretionary Grant funding for my clients.

As the SDF for a number of companies, I would like to place on record that I was very pleased to see how you have decided to make sure that funding given by yourselves is going to be used for the correct purpose.

I would also like to place on record that I am grateful on behalf of my clients for the funding that you have offered them. All of them have seen the need for training and the development of their staff in order to build a better South Africa.

Regards,

Lyndon
