

**NATIONAL DIPLOMA: PULP AND PAPER TECHNOLOGY LEVEL 6 (49690)****10Q100070003636**

	<b>EXIT LEVEL OUTCOMES</b>	<b>Code</b>	<b>NQF Level</b>	<b>Credit Value</b>
1	Apply engineering knowledge of chemistry, physics, mathematics and chemical engineering to operate common processes in pulp and paper manufacturing in a typical South African environment at an optimum level	49690	6	216
2	Operate processes in the Pulp and Paper industry according to specified output and quality targets	49690	6	40
3	Evaluate the operation of processes in the Pulp and Paper industry to ensure that they run at an optimum level	49690	6	80
4	Work with others to maximise effectiveness of production processes under supervision and manage own learning and performance and identify areas for development	49690	6	27
